

POLICY UPDATE: APRIL 2023

Regional / National

The Economy

The latest Quarterly Economic Survey results (that is, quarter 1, 2023) were published on 12 April. While order books and sales prospects were not particularly improved on the poor results of the previous quarter, although there were grounds for optimism. Admittedly, the balance figures of many of the categories followed low baseline trends, but things were stabilising in many areas. Confidence was up for many respondents.

Northern Regional Assembly

Team members attended the latest of this fairly new initiative of 16 Northern Chambers, to discuss lobbying on matters of mutual agreement. Focused largely on transport, key discussion points were on priorities for Transport for the North, reforming the way funding is approached, and the importance of getting Great British Rail to deliver on services. The latter two organisations also presented and fielded questions.

Business Representative Organisations

The Policy & Representation team had initiated (via Alice Ingram) a catch-up meeting on local and sub-regional matters with FSB and CBI representatives. This was done prior to the CBI's internal issues. The meeting went ahead with the FSB, with the CBI withdrawing from most external meetings for now. The meeting covered devolution, Levelling Up, Fair Work Charter and transport.

West Yorkshire Combined Authority & Leeds City Region

Head of Policy & Representation, Mark Casci, attended a Leeds City Region/MCA meeting at Wellington House, Leeds. The meeting brought together various business stakeholders from around the region to discuss branding and next steps for the mayor.

Bradford

Economic Partnership

Representatives attended the latest meeting with other local stakeholders at Odsal Stadium. Although this group has not yet formulated many actions or outputs, it is still quite new. Presentations were received on the economy, UKREiiF and Southern Gateway, and Chamber representatives made the point that the group and its members now need to focus on objectives, strategy and next steps.

City Hall liaison

The new Assistant Director for Transport, Planning & Highways, Richard Hollinson, met with members of the team on a 'getting to know you' basis. The Chamber had a close relationship with Richard's predecessor, Julian Jackson, and are keen to maintain that strong link. Richard has agreed to join Bradford Property Forum Steering Group and continue a good dialogue (he also attended a BPF event within a week or two of moving from Kirklees Council).

Design Code

The P&R team organised a meeting between business representatives and Council officers on a proposal to introduce design codes in <u>25 English towns and cities</u> to enhance principles and practices in relation to urban housing. The Council reps and their consultants were asked to note the potential negative impact on viability within Bradford if such a scheme was introduced across all of the District, and they were asked to incorporate the code's proposals into the earlier Design Guide, introduced only three years ago in 2020.

Leeds

Local Plan

P&R team members, and Property Forum Steering Group members, met with key Council reps as the Plan is due to be submitted to government this summer. The Council want to push further on climate change targets, with private sector reps feeling that market forces will enable some success in this area. Follow-on meetings on this will be scheduled.

Taiwan and local links

Head of Policy, Mark Casci, attended a presentation by Taiwanese ambassador to the UK, Kelly Wu-Chiao Hsieh. Organised by Andrea Jenkyns MP, the ambassador noted the strength of Taiwan's trading and tourism relationship with the UK. Although not referenced by the official delegation, other attendees voiced support for Taiwan over any interference from China.

Waterfront

Leeds Waterfront Group was attended by the Council, Civic Trust and the Canal & Rivers Trust. Updates were received on work to restore bridges, the successful launch of both the Leeds Pocket Park off Globe Road and the David Olawale Bridge. Actions include to start involving stakeholder firms whose offices adjoin River Aire, and the prospect of more public realm artwork.

York & North Yorkshire

Hospitality

A mini-series of round tables (or is that a series of mini-round tables?) was set underway in order to increase accessibility and convey talking points between members and the team. Events in Scarborough, Harrogate and Pickering kicked things off, while Whitby and Skipton were also covered.

Leadership Group

Members turned out in high numbers for the April Leadership Group, at which the Bank of England's Paul Mount and York Council's Kat Daly presented on the economy and Local Plan respectively. The group were also informed that Sarah Czarnecki had accepted an invitation to become Vice-President with immediate effect.

Intel Share

The latest of York Council's Business Intelligence group heard from the team. The group is a good source for exchanging views, data and other relevant information on the 'condition' of the local economy, what issues are keeping business leaders awake at night and if others measures can be taken to help.
